

## MAK PROJECTS

## WHERE

Quebec and Francophone Canada

## WHAT

Missions And Kids knows the importance of communicating the love of Jesus to children in their own language. There are hundreds of incredible teaching resources for the next generation in the English language. The sad reality is that very few of them are ever translated into French. One of Mission Canada's priorities is Quebec and Francophone Canada. Another is reaching the next generation. This Missions And Kids project allows these two priorities to mix together so we can translate much needed children's ministry materials into the French language. It must happen. It can happen. You can help make it happen! These children can be reached with the good news of Jesus!
